*One in five patients sitting
in your waiting room could
be suffering from allergies.
Now, you can provide
allergy testing onsite
at your facility while they wait.*

**INCREASE PRACTICE REVENUE.
DELIVER RELIEF TO YOUR PATIENTS.**

ONSITE ALLERGY SOLUTIONS

- Qualified allergy technicians
- Staff training
- Patient educational material
- Third-party, hassle-free billing
- Accepted by most insurance carriers
- Flexible business model

ONE IN FIVE patients sitting in your waiting room is likely to suffer from allergies. Many do not even know it and will leave your office today unaware that allergies are causing secondary symptoms like headaches and wheezing.

Now, you can offer these patients a valuable new service and grow your medical practice at the same time.

Onsite Allergy Solutions provides a full lab setup including allergen compounds and lab technicians to test for allergies onsite at your facility. All you supply is the space and the patients.

Increase practice revenue without adding costs

Most PCPs are not equipped to test for allergy disorders. Given today's rising cost of practicing medicine, doctors and clinics simply are not able to invest in the staff and the equipment needed to address this growing epidemic.

Until now.

Onsite Allergy Solutions provides all the equipment, testing supplies and technicians needed for allergy testing onsite at your office.

Onsite Allergy Solutions as your trusted partner

We are the most comprehensive, affordable onsite allergy solution for today's doctors, clinics and hospitals.

We customize our business model to fit the individual practice's needs. We offer:

1. Percutaneous/prick testing
2. Intradermal testing
3. Immunotherapy
